

KHA Summer Project

During the summer break, we would like you to complete a 'summer project'. This will be the first real impression of your work ethos and ability; it is therefore really important. We would be really impressed if you could also incorporate into your project our school values of being Kind, Hardworking and Ambitious in any way you like.

There will be a special evening for parents to attend in September where they will hear how you are getting on and your work will be displayed for everyone to admire.

Here are some ideas of topics you could choose from to get you started:

- Something I am proud of
- The best day in my life so far
- My summer
- My primary school
- What i am looking forward to at KHA

You can choose to present your project in any way. Here are some helpful hints:

- A story or poem
- A 3d model or painting
- A booklet or scrapbook
- A song or rap
- A newspaper or magazine article
- A poster or collage
- A PowerPoint presentation
- A video clip or podcast

Remember this will be your first impression you give King Harold Academy of your work ethos and how you meet our school values.

What are we looking for?

- That you have planned well
- That you have used your best language skills
- That you have presented your work to your highest possible ability
- That you have incorporated our school values.

You will share your projects during your first form time and prize winners will be chosen by your Form Tutors and Head of Year.
